

KPI Reporting

Key to bringing a high return on investment is our philosophy for ensuring the correct facilities information is delivered to the right people at the right time. CAFM Reports Explorer sits at the heart of the CAFM database and provides a unique, flexible and interactive reporting tool. An organisation's specific reporting requirements would dictate the intricate design of their database as these are the most important factors in building and implementing a productive FM system.

Key features include:

- Over 250 reports provided as standard.
- Measured performance benchmarking.
- Cost Control and monitoring.
- Help Desk performance management.
- Easy to use, configure and distribute.
- Key Performance Indicator reports for visibility on helpdesk activity.
- Service Level Agreement monitoring and reporting.
- Automatic generation of reports and direct email of reports to stakeholders.
- Specific corporate reporting requirements easily created.
- Powerful suite of management reports available.
