

Space Management

CAFME Explorer provides an easy to use link between AutoCAD drawings and the full range of facilities data available within the application. Utilising the CAFME CAD product will provide essential information to assist with Space Planning and Cost Recharging.

Key features include:

- Use of familiar AutoCAD tools to detail and manage space allocation.
- Map spaces, boundaries and assign attributes.
- Two way communication between facilities drawings and the database.
- Easy configurable options in the CAFME CAD palette.
- Tracking of occupied and vacant space.
- Auto Load of Hatch patterns for a quick start up.
- Automatic hatching and labelling of drawings from CAFME Explorer data.
- Space calculations automatically updated within the database.
- Ability to set up your database to charge departments for the space occupied and apportion shared space.
- Analyse the data using CAFME Reports Explorer.

If you would like to book a **FREE** one-to-one product demonstration with one of our friendly account managers, please email us at sales@cafmeexplorer.com or telephone +44 (0)1293 560 056. Alternatively if you would like to take a quick tour of CAFME Explorer, please visit www.cafmeexplorer.com and click watch demo.
